

Ministry of Health Zanzibar

PoE Zanzibar

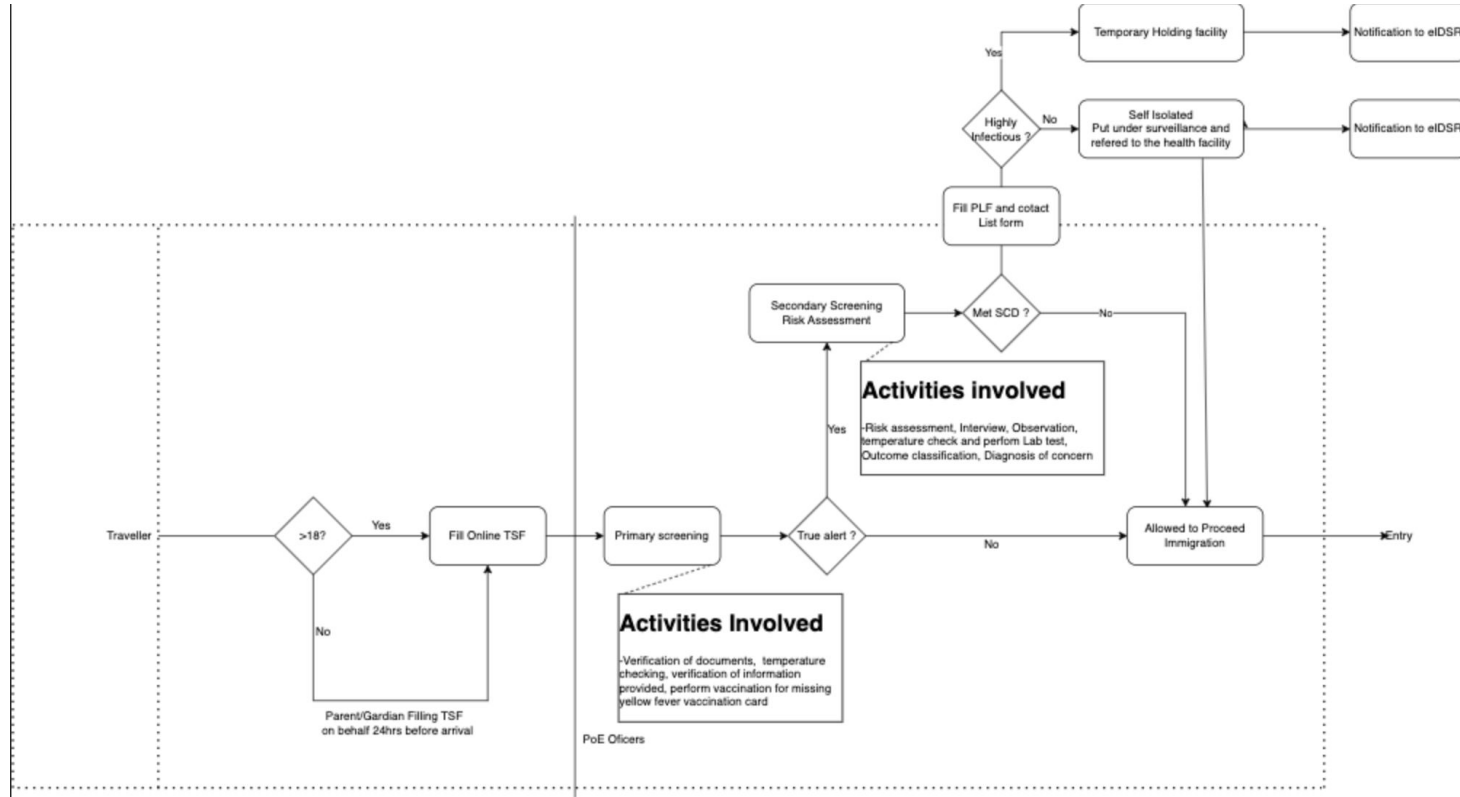

Prepared by HISP Tanzania

Background.

- The Ministry of Health, Social Welfare, Gender Elderly and Children Zanzibar, in collaboration with CDC/MDH and HISP Tanzania, is implementing an online web-based surveillance system to gather traveler information pertaining to improving public health in Zanzibar
- The deployed system (<https://healthtravelznz.mohz.go.tz/traveller>) collects traveler's information, facilitating communications across different health system levels and with clients
- As the system is continuously improved to meet the users' requirements, there is a need to have a common plan for executing the remaining activities

PoE Zanzibar Workflow

- Traveler – Filling of TSF
 - Arrival
 - Departure
- PoE Managers
 - Arrival Screening and Management
 - Departure Screening and Management
 - Reports
 - Dashboards
- PoE Administrators
 - System and Metadata Management

System Demo !
Karibuni Sana 😊
